

## F19 - Possible Identification

David H Proulx (#3153)

The illustrated cover from the Canfield Manufacturing Company, 208 Sigel Street, Chicago Illinois, is franked with a 2 cent Washington head. The stamp is perfined with perfin pattern F19. Originally, *The Catalog of United States Perfins*, 1979 did not list a user for this pattern. A correction included in a set of Additions and Corrections

Pages listed the Burd Manufacturing Company of Chicago, IL as a positive identification.

Neither "Burd" or "Canfield" fits the "FAC" of pattern F19. This new find will present a dilemma to the US Catalog Editor who must decide which entry, if any, is proper.
